

SWIMJET SWIMMING TRAINER

The MST Embedded Swimming Trainer is a pool counter-current system that creates a continuous water flow, allowing you to swim in place. Acting like an "underwater treadmill," it is perfect for stationary lap swimming, fitness training, and hydrotherapy in pools of any size.

Materials & Construction

- Jet Swim house made of stainless steel, front and handle made of polished acid-proof stainless steel AISI 304. For mounting in concrete, wood or building block walls.
- pump power: 3KW
- Control box including contactor and overload protection
- Air mixture control
- Air mixture hose
- Hose connectors
- Hose clamps
- Hose for suction and pressure
- Vales

4HP/220v/380v

Model	Power (KW)	Voltage (V)	Pump Connection (mm)	Water Capacity (m³/h)	Jet Material
