

## STEAM GENERATOR

TYPE MGS

### Comes in Minimalist Shape

MGS type steam generators have a minimalist form with a stainless steel tank. Control surface steam bath is equipped with twin settings. This type is the most economical choice.

**DIGITAL  
CONTROL PANEL  
TYPE PGH-800**

### Product Specifications Steam Generator- TYPE MGS

| TYPE    | DIMENSION (mm3) |    |    | WEIGHT (KG) | Phase | AMPS (A) | VAC | Volume m <sup>3</sup> |
|---------|-----------------|----|----|-------------|-------|----------|-----|-----------------------|
|         | L               | W  | H  |             |       |          |     |                       |
| MGS-30  | 44              | 15 | 34 | 17          | 1/3   | 12.5     | 240 | 1-3                   |
| MGS-45  | 44              | 15 | 34 | 17          | 1/3   | 18.75    | 240 | 3-5                   |
| MGS-60  | 44              | 15 | 34 | 17          | 1/3   | 25       | 240 | 5-7                   |
| MGS-75  | 48              | 15 | 40 | 18          | 3     | 31.25    | 240 | 7-9                   |
| MGS-90  | 48              | 15 | 40 | 18          | 3     | 37.25    | 240 | 9-10                  |
| MGS-120 | 48              | 20 | 46 | 19          | 3     | 56.25    | 240 | 10-14                 |
| MGS-150 | 48              | 23 | 46 | 21          | 3     | 62.25    | 240 | 14-17                 |
| MGS-180 | 60              | 23 | 46 | 35          | 3     | 75       | 240 | 18-21                 |
| MGS-240 | 60              | 23 | 46 | 35          | 3     | 100      | 240 | 22-25                 |

#### First Controller

first for temperature with heat sensor that separated, room controller used digital and analog for the generator to keep not excessively hot temperatures and has a durable generator.

#### Overheating Protection

complete with an overheating protection (max 220C).

#### Steel Powder Coating

The entire tank is made of steel powder coating. Preventing rust and corrosion for longer lasting strength.

#### Optional Steam Nozzle

Optional Steam Nozzel specially designed steam nozzle to further improve the steam quality achieving smoother and more comfortable experience.
